

Designing for users with dyslexia

Do...

use images and diagrams to support text

align text to the left and keep a consistent layout

consider producing materials in other formats (for example audio or video)

keep content short, clear and simple

let users change the contrast between background and text

Don't...

use large blocks of heavy text

underline words, use italics or write in capitals

DON'T DO THIS

force users to remember things from previous pages - give reminders and prompts

rely on accurate spelling - use autocorrect or provide suggestions

put too much information in one place
